

Office of Community Affairs

OUR DAUGHTERS, OUR DUTY

Community Engagement Centering on Solutions (CECOS) and Kennedy-King College are offering you an opportunity to learn more about cervical cancer, and its threat to the women of our community. (CECOS is a program of the University of Chicago Comprehensive Cancer Center.)

Join us on Saturday, March 20 at Kennedy-King College from 9:00 AM to 1:00 PM. Dr. Rick Kittles, Associate Director for Diversity and Community Outreach, and Dr. Kenneth Alexander, noted HPV researcher and Associate Professor of Pediatrics at the University of Chicago, will help us understand the role of the human papillomavirus (HPV) in cancer and how we can protect our families and friends.
